My-Portfolio

SUMMARY

Flutter Developer with **3+ years of experience** building and maintaining **cross-platform mobile applications** for Android and iOS using Flutter and Dart. Skilled in developing scalable applications with **Firestore, REST APIs, real-time chat systems, push notifications, and responsive UI architectures**.

Hands-on experience integrating **AWS Cognito, WebSockets, Socket.IO, and PostgreSQL** for secure authentication and live communication features. Currently expanding expertise in **Python FastAPI, LangChain, LangGraph, and GPT-4 powered AI applications**.

Passionate about building **high-performance, user-centric mobile applications** with clean architecture, reusable components, and modern development practices.

TECHNICAL SKILLS

Mobile Application Development: Flutter, Dart, Cross-Platform App Development, Responsive UI Design, State Management (GetX), REST API Integration, Clean Architecture

Backend & Database Technologies: Firebase Authentication, Firebase Firestore, Firebase Cloud Messaging (FCM), PostgreSQL, AWS Cognito, WebSockets, Socket.IO, FastAPI (Learning)

AI & Emerging Technologies: GPT-4 Integration, Prompt Engineering, LangChain (Learning), LangGraph (Learning), AI Chat Systems, Voice-to-Text Integration

Real-Time Communication & Social Features: Real-Time Chat Systems, Push Notifications, Deep Linking, Group Chat, Single Chat, Live Data Synchronization, Event Broadcasting

Tools & Version Control: Git, GitHub, Firebase Console, Postman, Android Studio, VS Code

Programming Languages: Dart, Python, Java, C

Application Features & Integrations: PDF Generation, Authentication Systems, Media Upload, Social Feed Systems, Payment Integration, API Consumption

Soft Skills & Collaboration: Problem Solving, Agile Team Collaboration, Debugging, Client Requirement Understanding, Continuous Learning

EXPERIENCE

Weavers Web Solutions Pvt. Ltd., India: Flutter Developer

Apr 2023 – Present

- Developed and maintained **multiple production-grade Flutter applications** for Android and iOS across domains including **AI, legal services, education, fitness, social networking, and recruitment platforms**.
- Built scalable mobile applications with **real-time chat systems, push notifications, Firestore integrations, REST APIs, and responsive UI architectures**.
- Integrated **Firestore, Firebase Messaging, AWS Cognito, and WebSockets** to enable secure authentication, live communication, and seamless user experiences.
- Designed and implemented **cross-platform UI components** with reusable architecture, improving development efficiency and maintainability across projects.
- Collaborated with backend teams and stakeholders to deliver **feature-rich mobile applications** with optimized performance and production stability.
- Worked on AI-powered applications integrating **GPT-4 based systems, prompt engineering, voice processing, and intelligent assistant workflows**.
- Improved application responsiveness and usability through **performance optimization, state management using GetX, and efficient API handling**.
- Participated in debugging, testing, deployment, and App Store / Play Store release management for multiple live applications.

Weavers Web Solutions Pvt. Ltd., India: Flutter Intern

Jan 2023 – Apr 2023

- Assisted in developing Flutter-based mobile applications with responsive UI and API integrations.
- Learned and implemented **Firestore services, state management, and mobile application lifecycle concepts**.
- Collaborated with senior developers on bug fixing, feature implementation, and UI enhancement tasks.

TOP PROJECTS

- **Mother Tongue with Trio – Kids Language Learning Platform**
Developed a **cross-platform learning app** to help children learn the Shona language through interactive lessons and engaging Flutter UI.
Key Highlights: Flutter, Responsive UI, Android & iOS Deployment, Child-Friendly UX.
- **Lawgic – Legal Consultation & Lawyer Marketplace**
Built a **legal marketplace platform** connecting users with certified lawyers in Kuwait. Implemented case submission, lawyer bidding, authentication, and real-time chat features.
Key Highlights: Flutter, Firebase, Real-Time Chat, Secure Workflows.
- **Family Bond App – Social Family Management Platform**
Created a **family social networking app** with event management, chat systems, and emergency SOS broadcasting for connected family communication.
Key Highlights: Real-Time Messaging, Social Features, Emergency Alerts.
- **OG App – Recruitment & Hiring Platform**
Engineered a **recruitment platform** supporting job postings, candidate applications, interviewer feedback, and live communication systems.
Key Highlights: AWS Cognito, Firebase Messaging, WebSockets, Scalable Architecture.
- **Simmer – Social Food Dating Application**
Designed a **social food dating platform** where users can connect, chat, and share dining experiences through real-time interactions.
Key Highlights: Firebase Chat, PostgreSQL, Real-Time Communication.
- **Qahveen – AI-Powered Coffee Reading Platform**
Developed an **AI-driven coffee cup reading application** that analyzes uploaded cup images and generates personalized readings using advanced AI workflows. Implemented secure payment flows, image processing, subscription handling, and multilingual support across Android and iOS platforms.
Key Highlights: Flutter, AI Integration, Image Upload, Subscription System, Firebase, Real-Time Processing.
- **Bugfit – Fitness Training Platform**
Developed a **fitness management application** enabling trainers to upload workout videos and members to access structured training content.
Key Highlights: Media Management, User-Based Access Control, Flutter UI.
- **Skill Bridges – Firebase Chat MVP**
Built an MVP focused on **real-time chat functionality** with Firebase Firestore, authentication, and scalable messaging workflows.
Key Highlights: Firebase Firestore, Authentication, Scalable Messaging.
- **Success App – Social Media Platform**
Created a **social networking application** with posts, likes, comments, user following, and real-time chat systems.
Key Highlights: Firebase Firestore, Social Features, Real-Time Chat.
- **Voice Assistant AI Application**
Built an **AI-powered voice assistant** capable of speech-to-text conversion, intelligent response generation, and PDF report creation using GPT-4 APIs.
Key Highlights: GPT-4 Integration, Voice Processing, AI Automation.
- **Rae AI – AI Relationship Assistant**
Developed backend systems and real-time communication workflows for an **AI relationship guidance platform**.
Key Highlights: Socket.IO, GPT-4, Deep Linking, Real-Time Chat.

EDUCATION

- **Master of Computer Applications (MCA)**
Swami Vivekananda University, India2024 – Pursuing
- **Bachelor of Computer Applications (BCA)**
MAKAUT, India2020 – 2023 | CGPA: 9.11
